

TUNA BLUE

Alcohol and Other Drug Crisis Intervention Response Community Forum

Tuna Blue, on behalf of the Mental Health Commission, invites you to contribute to the Alcohol and Other Drug (AOD) Crisis System Service Model

Join the discussion on AOD crisis intervention needs in Western Australia, and explore current and optimal pathways for individuals in AOD crisis. We would like to hear from consumers, family members and carers, general community members and service providers. This forum is part of phase one of community engagement on this topic and will be followed by a second phase in May 2020. You are not required to attend forums in both phases of engagement, although you are welcome to do so.
