Subject: Have your say – Mental Health and Alcohol and Other Drugs Workforces Survey now open

Hi team,

The [Mental Health and Alcohol and Other Drugs Workforces Survey](#) is now open, and this is your opportunity to have your say.

This first-of-its-kind initiative will build a clearer, shared understanding of workforce capacity, structure and roles across the sector and help inform future workforce policy and planning in Western Australia. By taking part, you are helping shape the future of the workforce across the state.

The survey is open to everyone working in mental health and alcohol and other drugs services, including administration staff, clinicians, health practitioners, peer workers, managers, leaders, and policy professionals.

Every response counts. The more people who participate, the better positioned the sector will be to plan for the future.

Participation is voluntary and confidential. This study has Western Australian Aboriginal Health Ethics Committee (HREC 1569) approval.
