

Acknowledgement to People of Lived Experience

I would like to acknowledge all people of lived experience of mental distress and overwhelm and those living with alcohol and other drug use issues, their families, carers and loved ones. It is because of you that we meet today and together do our work, diligently and to the best of our abilities, transforming and improving the systems of supports available for all of us, when we most need them. I especially wish to acknowledge those people who are unable to speak and be heard. Nothing about us, without us.
